NEWS OF MEN

IN SERVICE

DICK ATTINGER

Friends of DICK ATTINGER will be interested to know he has left his work with an oil company at King City and is now training at a radio technical school in Illinois. He has passed all his examinations thus far and expects to be a plane radio operator before long. He is working hard and likes it fine. Mrs. A. J. Cadero advises this newspaper. His address is 561 T. S. Sqdn Scott Field, Ill.

FLIES FOR CANADA

Niles has lost the services of an Air Raid Warden and a helper in the recent War-Bond drive in the person of LLEWELYN GWY-THER, 24, graduate of Washington Union High School with the class of '38 who left for Canada last week to enlist with the Canadian R.A.F. He was born in England, lived in this country about 20 years and at Niles for the past several years. Though registered with the Township Draft Board he requested a transfer to Canada.

WANTS SOFTBALL NEWS

Private ALBERT SILVERIA, former president of the Washington Township Softball association writes this newspaper from ??? as follows: "I am working pretty hard but I don't mind it. I kind of miss my paper and the reports on my softball crew. You can see my mail has not caught up to me yet. As ever, Pvt. Albert Silveria, Co. E. 15th. Coast Artillery, A.P.O. 954, c/o Postmaster San Francisco."

The postcard shows a picture of the royal palm trees in ??? and was passed by the Army Censor. Al will no doubt be glad to receive letters from his softball "crew" members and other friends in Washington Township.

MAY VOTE IF REGISTERED

Men in the service may vote at the August 25th primary election by absent ballot if they are registered. They may write to the county clerk of the county in which they reside and obtain ballots between August 5th and 20th. Such ballots must be mailed to reach the county clerk not later than August 25th. A bill now in Congress would permit service men to vote without registering, but it has not yet been acted upon and is not expected to be in effect for the August primary.

STEWART McCLURE of the Mission Peak Ranch, an editor of a San Jose newspaper for the past year, reported for duty July 30, at Monterey.

ROBERT SALZ of Redwood City, formerly of Centerville, son of Mrs. Henri Salz has been assigned for training at a chemical warfare school in the South.

NAVY WEDDING

NEWARK — Word was received in Newark last week of the wedding ceremony uniting Miss Beth Musick, daughter of Mr. and Mrs. Musick of Newark, and Mr. Renzo Quilici of Crockett. Miss Musick is a graduate of the Newark Grammar school when her father, Mr. Musick was principal; a graduate of Washington High School in Centerville; a graduate of San Jose State College; and attended Stanford University for two years. She plans to return to college while Mr. Quilici will report to the United States Navy. The groom is a graduate of San Francisco and of Chico State College.

Rev. and Mrs. D. Q. Grabill of Niles relate that their married daughter's husband has been sent to the Douglas Aircraft repair depot at Eritrea on the Red Sea near the Suez Canal.

Dr. VASCO SALVADORINI of Castroville, a graduate of Washington Union High School and a former resident of Centerville has been commissioned a lieutenant, junior grade, in the U. S. Navy and has been ordered to report for duty as an assistant surgeon at Mare Island on August 17.

Judge A. G. Norris has set bail at \$1,000 for Pvt. DAVIS L. ADAMS of Watsonville who allegedly cashed a worthless check for \$10 in Irvington. The complaint was signed by Emil Gwerder.

HAROLD KLEINSASSER of Niles was accepted into service last Thursday. He was granted 14 days leave and left for his parents home in the San Joaquin Valley Friday. He plans to return to Niles on Tuesday, August 11 and will report to the Monterey Presidio on August 13.

Ensign FRANCIS HOWE of Irvington, who has been stationed with the Navy in the East, has been assigned to Harvard University for special training, according to word received here recently by relatives.

Private VERNON ELLSWORTH, in service with the Air Corps at the Presidio of San Francisco was in Niles Saturday night and gave a dinner for some of his friends in the service.

Ensign JACK STEVENSON of Centerville, son of Mr. and Mrs. John Stevenson has just been commissioned in the Navy and left the West Coast late last week for a training center in the East.

Private EUGENE GOMES, former Golden Eagle Service Station operator at Niles spent a weekend furlough visiting friends at Niles. He entered the infantry at Camp Roberts in June and expects to be transferred out in a week or two. He brings the good news that yellow fever shots are not being given troops now, except those going into tropical service.

NORMAN COLLINS of Niles reported for duty in the Army at the Presidio of Monterey last week.

HUGH MOODY of Niles, who was inducted into service in June expects to leave Camp Crowder, Missouri, in a week or two for parts unknown.

Mrs. Helen Pearson, formerly of Niles, left Oakland the first of the month by car to join her husband, Lieutenant J. L. Pearson at Fort Leonard Wood, Missouri, where he is training intensively with the Engineers.

Peter G. Bunting left last week to be inducted into the navy at San Diego. His brother "Bob" of Niles, who graduated last year from Washington Union High School, enlisted and both of the boys left together. Mrs. Peter Bunting will remain on the ranch for the time being.

Dr. and Mrs. John Rathbone are visiting friends and relatives in Niles and Centerville. Dr. Rathbone has recently been commissioned as a lieutenant, junior grade, in the Navy.

HOTEL OPERATORS MUST REGISTER ON AUGUST 15

Registration forms for operators of hotels and rooming houses, filing for the new federal rent-control act, are available now throughout the San Francisco-Bay Defense-Rental Area.

With the arrival of the forms from Washington, Murray R. Benedict, rent chief, today announced registration for this classification definitely will begin on Monday, August 17, to be concluded by August 31.

The blanks will be made available in advance of the actual registration date to afford landlords ample time to study and correctly fill out their statements. They will be available at San Francisco — 1263 Market St and Oakland — 328 13th St.

The hotel-rooming house classification also includes boarding houses, dormitories, auto camps, trailer camps, space rented for trailers, residence clubs, tourist homes, tourist cabins, and all other establishments of a similar nature. Also, the law requires registration of rooms rented in a private home.

Registration of landlords other than operators of hotels and rooming houses continued throughout the nine counties. The "deadline" for this classification is August 15. Benedict said the registration was progressing satisfactorily throughout the area, but warned landlords against inconveniences of last-minute filing.

TOMATO GROWERS TO PAY NINE CENTS PER BOX

CENTERVILLE — A tomato pickers committee of the Alameda County Farm Bureau was appointed at a tomato growers meeting held in the high school here on July 28 with Joe Rose as committee chairman. They set a price of 9c per box or \$4 per ton for picking this year's crop of tomatoes. A bonus of 1c per box will be paid pickers who stay throughout the season.

Other members of the tomato committee assisting Mr. Rose are Messers, Young, Rivolta, Nielsen, Martin, and Braga, according to word sent this newspaper.

NOTICE TO CANDIDATES
Political news stories will only be published in this newspaper when paid advertising is ordered by the candidate to accompany such news releases. — The Editor

LANDLORDS SHOULD EXERCISE CARE IN EVICTING TENANTS

Increased number of complaints prompted Murray R. Benedict, federal rent chief, to again warn landlords to move carefully in such actions.

"Even the usual 30-day notice to vacate is considered an attempt to evict. In many instances this attempt would be unlawful, with landlords facing possible prosecution plus damage suits brought by tenants."

Many of the eviction proceedings, Benedict said, are results of tenants refusing to pay more than the legal rate established under the new federal rent control act.

"For their own protection, landlords should be fully informed of the consequences they face in forcing or even attempting to force evictions under certain conditions."

"No tenant can be forced to vacate for refusal to pay more than the maximum rent. Among other specified reasons, a tenant can be evicted for violating certain clauses of his agreement, or for breaking existing state laws, but even in these instances it would be wise for landlords to first clear with rent officials."

Benedict said violation of eviction regulations can result in criminal and civil proceedings.

Meanwhile, registration of landlords in nine counties of the San Francisco-Bay Defense-Rental Area continued. The "deadline" is August 15.

In this district landlords who have not yet registered their rental properties must write for the proper forms to the Office of Price Administrator, 1355 Market Street, San Francisco, and return their completed forms before August 15 to escape severe penalties.

JACK REES NAMED VICE PRINCIPAL AT WASHINGTON HIGH

CENTERVILLE — At the same time the board of trustees of Washington High school called J. V. "Pop" Goold to be principal they elevated Jack Rees to the post of vice-principal and dean of boys, filling the vacancy left by the promotion of Mr. Goold to the superintendency. Mr. Rees has successfully conducted public forums for the past two winters.

Barton Webb was confirmed as Evening High School principal, a post which he has held successfully for the past several years.

TWO GRASS FIRES

After several quiet weeks the Niles fire siren came to life Monday night before 11 o'clock and again after 2 a.m. as Chief A. M. Alves and his crew were called from bed to extinguish a pair of grass fires up Niles Canyon, some three hours and a few miles apart. Both blazes were extinguished without doing appreciable damage. The county fire truck from Livermore helped quell the second fire near Dad's Place up the Canyon.

WESTVACO TUMBLED TO THIRD PLACE IN CLOSING GAME

FINAL GAMES DUE NEXT MONDAY NIGHT FOR LEAGUE TITLE

By Eugene Pashote

The Washington Township Softball league closed with a wild, hectic game last Friday evening at the softball park in Centerville when Woodmen of the World nosed out Westvaco 10 to 9 in a nine inning game. This loss for Westvaco put them in third place in the league standings, after being situated in first place for ten weeks.

Playoff games for the championship commenced on Monday evening of this week with Native Sons clashing with Westvaco in the first game and Occidental meeting Woodmen of the World in the second game. The second game of the three game series in the semi-finals took place on Wednesday evening, and the third game, if it should be necessary to play a third game, is to be played tonight, (Friday). As soon as two of these four teams are eliminated in the semi-finals, the finals will take place immediately with games commencing next Monday evening, August 10.

The Softball Association, about completing its third year as sponsors of the Township league, announces that a benefit softball game between the United States Navy softball club of Oakland and an All Star softball club of Washington Township will take place at the High School park sometime the latter part of this month.

Plans are also being made, according to Louis Amaral, acting president, to have the Alameda All Star Girl's team play a game with the second All Star softball club of Washington Township on the same evening as the benefit Navy game above.

For Navy Relief

Amaral states that outstanding players of each team will make up the two all-star teams for Washington Township, which should bring fans from every part of the township to see this game. The proceeds of the Navy game will go to the Navy Relief fund.

The final games next week commence at 8 p.m. The winner of the playoffs will receive a gold trophy.

Highlights of the closing games in the softball schedule follow:

On Monday evening Native Sons shutout Westvaco 10 to 0 in a very poor game on Westvaco's part. Ornellas for the winners allowed two hits and struck out six men. Miller was the losing pitcher.

In the second game, Occidental nosed out Central Chev. 6 to 5. Telles for the winners allowed three hits and struck out ten men. Harleson for the losers allowed four hits.

In the first game Wednesday evening Woodmen of the World nosed out the Knights of Columbus by a score of 6 to 5, while in the second game Native Sons downed Central Chev. 12 to 1. Joe Dutra and Manuel Azevedo for Native Sons each hit a home run. Winning pitchers were Rogers for Woodmen and Ornellas for Native Sons.

On Friday evening the final and only game was played between Woodmen of the world and Westvaco with Woodmen winning in (Please turn to Page Five)

SECOND SALVAGE DRIVE AT NILES SET AUGUST 16

The Niles Salvage Committee, a permanent war-time organization, has designated Sunday, August 16 for the second volunteer pick-up day of old metal in the Niles School District area. Dr. T. C. Wilson, committee chairman announces.

The first drive held on Sunday, July 27 was moderately satisfactory, yielding over 5½ tons of precious scrap, for which the receiving department at the Pacific States Steel corporation promptly sent their check for \$72.09, for use in equipping the Niles Disaster Center at the Grammar School.

It is the committee's belief that the surface has only been scratched, particularly on the larger farms in this school district, where disused or broken farm machinery, trucks, cars, tractors and parts, have accumulated over the years. The committee earnestly asks farmers to survey their "grave yards" and decide what pieces of metal, (other than galvanized surfaced) they can dispense with in the interest of keeping our steel furnaces supplied.

List Your Names

If they will then list their names and locations with the committee at Niles 4442 or Niles 4553 arrangements will be made for donated trucks to call a week from Sunday and load the scrap to be sold to the steel mill.

Farmers who wish to keep the proceeds from their own scrap sales, the metal now bringing about \$12.95 per ton delivered at the mill west of Niles, are urged to do so, so that the mill, which is filling orders for the U. S. Navy, gets the use of idle scrap metal to recast into munitions to be delivered in Tokyo or elsewhere, with Uncle Sam's compliments.

Asked to serve with Dr. Wilson on this patriotic committee are Contractor Dias, Lumberman Bonde, Realtors Ellsworth and Bailey, Theatremen Helm, and Editor Waynflete.

Advertising Tells . . .

An advertisement appearing on the back page of this issue and the next issue pictures the type of junk metal sources which most households and farmers possess, the substance of which Uncle Sam want.

By contrast with Niles first pick-up on July 26, the relatively small community of Mt. Eden that same day picked up and delivered more than 15 tons, or almost three times Niles' amount, at the steel mill.

Mt. Eden's surprising success may be attributed to the fact that their chairman enlisted the support of the community's Civilian Defense block wardens, who called door to door on their blocks, soliciting junk metal.

When Dr. Wilson, now taking life easy on the fishing coast of Mendocino County, returns from his vacation it is just possible he and the Chief of Niles Air Raid Wardens will go into a huddle and ask the wardens to perform a similar service throughout the Niles School district.

It's all for Victory, folks, and is little enough to ask in the name of patriotism!

Coming Events

FRIDAY

1:30 p.m. Reception for Mrs. D. Q. Grabill by Sanford Circle and Ladies Guild at Niles Congregational Church.

7:30 p.m. Niles Rebekah lodge goes to Alvarado.

SATURDAY

6:30 p.m. Farewell barbecue for Mr. Rathbone and Mr. Lindsay planned by Township Coordinating Council at E. A. Ellsworth home.

MONDAY

8 p.m. Final game in Township Softball league for championship begin at high school field.

IRVINGTON

Miss Dorothy Adams
Correspondent

Mr. and Mrs. Joe Amaral Jr. and Mrs. Mary Amaral and Dorothy were weekend visitors in Monterey.

Mrs. Adeline Martin is visiting several days at Pacific Grove.

Mr. and Mrs. Wallace Pond of Berkeley are visiting Mr. and Mrs. L. R. Pond and friends of Irvington for several days.

Wesley Hammond has accepted a position in the E. H. Hirsch grocery store here.

Mr. and Mrs. Allen R. Hirsch have returned home from a two week's vacation spent at Hoberg's summer resort.

Martha and Anna Mae Grimmer are having a ten days vacation at Saint Mary's Camp in Glenwood.

Dr. and Mrs. E. M. Grimmer and friends were visiting their camp over the weekend.

George Scamman's mother and sister from San Francisco visited the Scamman home on Monday.

Clyde P. Robinson, Mrs. Scamman's son-in-law is now stationed at Hamilton Field in Marin County.

Mrs. R. J. Wright returned home Monday with her nephews, Lyle and Marvin Semaneka after a vacation at Cisco Grove.

Gene Murrell from Irvington received the congratulations of his friends on his 17th birthday last Friday.

Ben, Gertrude and Arnold Mozetti enjoyed a weekend at Monterey.

Mr. and Mrs. Hermon Durft of Esparto visited Mr. and Mrs. Raymond Benbow for several days. Lester Benbow went with them for a month's stay.

Mr. and Mrs. Bud Karius formerly employed at the Occidental stove plant left Monday for Huntington Park where they will make their home. Hubert Strut, also from Occidental is making his home there.

Private HOMER HUGHES of Montana, a cousin of Mr. and Mrs. Robert Mahaffey with Private Thomas Ralston of Illinois and Arch Calwfon of Montana visited the Mahaffey home Saturday in Warm Springs. The two Privates are now stationed at a barracks in Illinois. The Mahaffeys and the boys enjoyed the sights around San Francisco including the zoo, and lovely Golden Gate Park, all of which were of special interest to the out-of-state boys.

Local residents learned that Joe "California" Silvera, who has been with the E. H. Hirsch Company for so many years, has resigned. He has accepted a position with the Metropolitan Life Insurance Company. Our best wishes go with him on his new venture.

The Dwight Thornburg family moved to Centerville into the home formerly occupied by Joe Adams on Parrish and Fremont Streets.

Mrs. Ruth Mottashed of Barstow and Mrs. Ella Tomkins of Berkeley were Monday visitors at the L. H. Adams home.

Private J. Pooler of Kansas City and Donald Elaison of Lamoni, Iowa were Sunday guests of the L. H. Adams family.

Mr. Pearl Dargitz enjoyed the weekend with friends in Santa Cruz.

Mrs. Florence Mederios has resumed her duties at the Reynolds Store after a week's vacation.

Mr. and Mrs. Bob Wright have returned home from a two weeks' vacation spent up north.

Miss V. Bender has left for Oakland after staying with Miss L. Loyed for several days.

Mr. and Mrs. L. S. Millard have returned home from a two weeks' vacation.

Dulinda Rogers of Jersey Island is spending a vacation at the home of her uncle in Irvington.

The condition of L. E. Cline at St. Joseph's hospital in San Francisco is not as satisfactory as could be desired.

NEWARK

Eugene Pashote
Correspondent

Private First Class EMIL RINES was a visitor in Newark HUGHES of the United States Marine Corps Saturday.

Eugene Pashote and William Gould attended the Ice Follies at Winterland in San Francisco Saturday evening.

The Newark Fire Department extinguished a grass fire Thursday morning at 11:30 on Dairy Avenue near the residence of Serafine Fernandez. No damage was done.

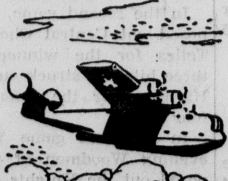

Mrs. Al Le Mar, the former Mary Meneze, left here Sunday to make her future home in Sausalito. Mrs. Le Mar was employed at the Wedgewood Stove Factory for several years. Mr. Le Mar is now employed at the Marinship yards in Sausalito.

Mr. and Mrs. James Nevis spent the weekend at San Francisco visiting Mr. and Mrs. Charles Leiss.

Mrs. Ann Lauridson of Sacramento spent the weekend here visiting her sister, Mrs. Ethel Schmalholz and a friend, Julia Ruschin.

What You Buy With WAR BONDS

The giant four-motored Navy Patrol Bombers are the world's most powerful planes. They cost approximately \$700,000 each. The Navy also has a lighter Bomber called the Scout Bomber which costs about \$143,000 apiece.

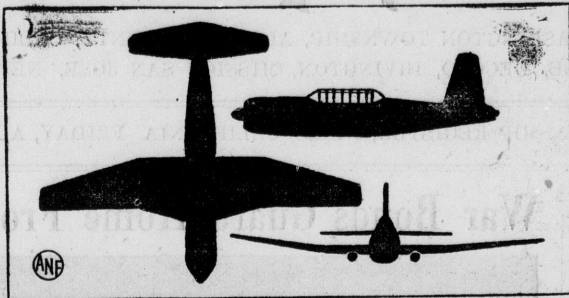

The battle for Britain was almost lost because England had none of these giant four-motored planes with which to fight back. We need thousands of them and they are coming off the assembly lines in our production plants at a high rate of speed today. You can help buy these for your Navy by purchasing War Bonds and Stamps every pay day. Put at least ten percent into Bonds or Stamps and help your country go over its quota.

U. S. Treasury Department

Know America's Planes

VULTEE "VENGEANCE" DIVE BOMBER

The Aeronautical Chamber of Commerce of America here presents three-view silhouette of the "Vengeance," VulTEE's deadly dive bomber now being produced here in large numbers for the British. Powered by a Wright Cyclone air-cooled engine, it can carry a large bomb load in its fuselage. It has a high, symmetrical fin and flat-topped rudder and its wings have a somewhat unusual angular appearance, tapering in trailing edge from the center section to squared tips, and tapered on leading edge on center section. Front view indicates it is a low mid-wing monoplane with dihedral from center section to the wing tips. The cabin is set well back from the nose. The "Vengeance" carries a crew of two.

A Sufficiency of All Things Needful

TODAY, some of the sources of our customary supply are closed. Yet there is, and always will be, adequate provision for our needs in the infinitude of God's universe.

We may ask, How can this assumption be proved practical? Should we not be willing to utilize the truth of the familiar assurance from the twenty-third Psalm, "The Lord is my shepherd; I shall not want"? Perhaps we have admitted that if we trust in God we shall not lack courage, strength, or a sustaining, protecting presence. But would God be Love if we could not further rely on His power to be made manifest in ways that meet all phases of human need? God, who created man, could not allow His own creation to be deprived of aught that is necessary to sustain life and harmony.

To the divine presence, warfare is unknown. It does not affect the sublimity of God. It does not enter God's kingdom. Through spiritual sense we may enter and abide in His kingdom. Through spiritual understanding we may realize that since warfare has place in His kingdom, the so-called results of warfare can have no effect on God's ever efficacious power. Therefore, we should not accept for ourselves or for others limitations based on conditions resulting from war. To do so would be to limit God's power. This would be an absurdity, for God, Life, is the eternal source of life, and of all that sustains and protects infinite being, including individual man.

God's care of the children of Israel during their wanderings through the desert proved His goodness in a practical way. When the people complained of hunger, God declared (Exodus 16:4), "Behold, I will rain bread from heaven for you." Moses, under divine direction, then said to the people (Exodus 16:18), "Gather of it every man according to his eating, . . . take ye every man for them which are in his tents." And we are told that "the children of Israel did so, and gathered, some more, some less. And when they did mete it with an omer, he that gathered much had nothing over, and he that gathered little had no lack." Moses instructed them to leave none till the morning, knowing that the divine promise would not fail. But some,

Eugene Pashote and William Gould of Newark and Ernest Walker of San Jose spent Sunday at Santa Cruz. Mr. and Mrs. J. E. Pashote also spent Sunday at Santa Cruz.

Eugene Boyce left last Monday for Honolulu where he is to be employed in defense work.

moved by greed or fear, disobeyed; and in the morning that which they had hoarded was unsuitable for use.

The lesson is a pointed one. The law of Love, God's law of supply, operates with justice towards all. Security and freedom from fear of lack may come to each one through consecrated daily prayer and obedience.

Christ Jesus utilized God's law of provision to meet human needs. His faithful follower, Mary Baker Eddy, the Discoverer and Founder of Christian Science, understood that God's law blesses mankind. As an earnest student of the Bible she came to understand God as unchanging Love. In "Miscellaneous Writings" (p. 307) she gives this particularly helpful assurance: "God gives you His spiritual ideas, and in turn, they give you daily supplies. Never ask for to-morrow: it is enough that divine Love is an ever-present help; and if you wait, never doubting, you will have all you need every moment. What a glorious inheritance is given to us through the understanding of omnipresent Love! More we cannot ask: more we do not want: more we cannot have." . . .

False rumors should not be allowed to influence one to become fearful. Governed by humility, faith, spiritual understanding, and obedience, each one will prove the ever-operative power of divine law to provide for individual needs, and for the larger needs of the nations.

Praying, with faith in God as the infinite source of supply, will help to break the mesmerism of fear and limitation for all mankind. Mrs. Eddy writes in her textbook, "Science and Health with Key to the Scriptures" (p. 13): "Love is impartial and universal in its adaptation and bestowals. It is the open fount which cries, 'Ho, every one that thirsteth, come ye to the waters.'" As more and more individuals realize this spiritual fact, divine Love's omnipresence will be felt and proved. Nothing can limit the power of Love or shut out its continual manifestation. Magnifying in our own hearts the love of God will bring to light a better understanding of Him, and with it a sufficiency of all things needful at the right time, and in the right way.—The Christian Science Monitor.

Joe Caldeira and son Harold, and Louis Caldeira spent Saturday deer hunting at Joe Ferry's ranch in the Livermore hills. There were no deer bagged by this group.

Mrs. George Butler and Miss Merle Tolle returned home recently after spending ten days at Yosemite National Park.

Bill Montero is spending a few days at Newman visiting his mother.

C. E. HAS PARTY

IRVINGTON — Members of the Christian Endeavor Society of the local Community Church together with the members of the Township C. E. Societies enjoyed a party given by Reverend and Mrs. Philip O. Evald, Saturday night at the parsonage in Centerville. Plans for another get-together in the near future are being formulated.

CHRISTIAN SCIENCE CHURCHES

In all Christian Science churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, a Lesson-Sermon will be read Sunday, August 9, on the subject "Spirit." The Golden Text will be: "Where the Spirit of the Lord is, there is liberty," (II Cor. 3: 17).

Bible selections will include the following passages from Matthew 20: 30, 34: "And, behold, two blind men sitting by the wayside, when they heard that Jesus passed by, cried out, saying, Have Mercy on us, O Lord, thou son of David. . . . So Jesus had compassion on them, and touched their eyes; and immediately their eyes received sight, and they followed him."

Passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included, which read as follows: "Sight, hearing, all the spiritual senses of man, are eternal. They cannot be lost. Their reality and immortality are in Spirit and understanding, not in matter,—hence their permanence. . . . The apprehension of this gave sight to the blind and hearing to the deaf centuries ago and it will repeat the wonder," (pp 486,487).

Miss Mitze Tautenhahn of Newark is spending a few weeks at San Francisco visiting friends.

Miss Shirley Ann Rose of Oakland is spending a week here visiting Mrs. Anna Marshall.

J. F. Silva and Joe Martin are spending the week at Silva's summer home in Monterey.

Mr. and Mrs. John Hood of Oakland spent the weekend here visiting Mr. and Mrs. Frank Silva.

Ray Truscott returned home Friday after spending a week at Mount Pleasant in Utah. He was called by the death of his mother at Mt. Pleasant.

Mr. and Mrs. Arthur Biddle spent the weekend at their summer home in Paradise Park in the Santa Cruz mountains.

Caroline Maciel returned to her home in Gustine Saturday after spending two weeks here visiting Mr. and Mrs. Tony Silva.

Frank Nevis and son Mervin and Frank Guido of Newark spent Sunday at Sycamore Park, bass fishing. Each caught a limit.

Mr. and Mrs. Arthur Brown and son Bobby spent Sunday at Santa Cruz.

The Newark Sportsmen Club held their regular meeting Tuesday at Butler's Hotel with Dick Jolly presiding. The Sportsmen are making plans for their annual fall dance.

James Miller Jr. returned home last week after spending two weeks at Berkeley visiting Mr. and Mrs. J. A. Nunes.

Mrs. Manuel Perry and Mrs. Bob Caldeira and family spent last week at Santa Cruz.

Plans are being made for the Duke Martin dance to be held at the Newark Pavilion Saturday evening, August 22nd. At this affair there will be a stage show and a broadcast over radio station KYA direct from the Pavilion.

IRVINGTON INSTITUTE HAS HAWAIIAN EVENING

IRVINGTON — President Ann Perry and the retiring deputy, Noel Mardis were honored at a reception given by St. Jude's Institute of Y. L. I. recently.

The motif for the evening was Hawaiian and a guest of honor was Helen Guanachini of the Honolulu Institute. Each of the honorees was presented with a lei and refreshments were served following a program of entertainment.

NILES LOCALS

Miss Rosemary McDonald
Correspondent

Mr. and Mrs. E. A. Ellsworth spent a few days over the week-end vacationing in Monterey County.

Miss Betty Murphy of Niles, a graduate of Washington Union High School with the class of 1941, who spent nine months at a secretarial school in San Francisco now has regular employment in the office of the Pacific States Steel corporation.

Miss Muriel Fournier, Girl Scout leader took ten girls of the Niles troop on an overnight camping trip Tuesday at Joyland up Niles Canyon. The girls swam, ate, moved rocks from under their sleeping bags and otherwise had a fine time.

Vice Principal Jack Rees of Washington Union High School was scheduled to be guest speaker at Thursday's luncheon meeting of the Niles Rotary club held at the City of Florence Restaurant. Ted Glassbrook introduced the speaker. Mr. Rees' subject was India.

Claire Lopez of the Leslie Salt company and Clarence Graham Jr. of the Graham Manufacturing company both of Newark, are new members of the Niles Rotary club.

Mr. and Mrs. W. T. Lindsay enjoyed a farewell dinner Friday evening as guests at the Waynflete home.

George Stratton of Newark is now "grandpa." A daughter was born recently to his married daughter, Mrs. C. W. Scheibel of Hayward.

The Associated Oil company at Niles has finally secured a freight car, due in next week, upon which to load the many tons of scrap rubber picked up through Southern Alameda County nearly two months ago.

The largest per capita consumption of lumber in the country is in California.

NINE YEARS OLD

NEWARK — A birthday party was held at the home of Mr. and Mrs. Joe Caldeira on Wednesday in honor of their daughter Miss Darlene Caldeira's ninth birthday. The day was spent playing games and refreshments were served. Those present were Beverly Nevis, Loretta Caldeira, Carmen and Carmelia Pierce, Diane Reider, Betty Machado, and Dorothy Enos.

On Wednesday night, August 5, President Anna Catlett made her official visit to the Livermore Rebekah Lodge. Preceding the meeting a dinner was given in honor of Mrs. Catlett. Mrs. C. Parry, District Deputy of District 53, accompanied by her escort staff and other officers and members of the Niles lodge attended.

On Friday evening, August 7, there will be a short business meeting of the Niles Rebekah Lodge according to Sena Carr, Noble Grand. All members are requested to be present at 7:30. Afterward all members will visit the Alvarado Lodge where Mrs. Catherine Parry will make her official visit and hold a school of instruction for officers.

Members of the Orient Chapter, O. E. S. attended a reception for the District Deputy of San Leandro on Friday evening.

Andrew Lindsay came down from Dimond-T Scout camp in the high Sierra near Mather on Monday; and is helping his parents to move to Los Angeles on Sunday, August 16. Their daughter Miss Elizabeth is working in a Hayward Drug store until she goes into nurse's training this weekend.

Tom Bunting, son of Mr. and Mrs. Lawrence Bunting of Niles, and Shirley Francis of San Jose were married in Reno on Saturday.

Mrs. R. J. Bradford spent Sunday at the home of her aunt, Mrs. Bock of Hayward, where she enjoyed a family reunion.

Mr. and Mrs. Sydney Carr have returned from Goleta where they visited their son Herbert Carr for four days.

Clayton George left Wednesday for Salt Lake City Utah, accompanied by A. Regan. He made the trip by United Air Lines and intends to remain in Utah for a few weeks.

Mrs. Rose Fournier has her sister Mrs. Sue M. Field of Sacramento, as her house guest this week. Mrs. Field arrived on Monday.

Mrs. Agnes Nihill, Mrs. Dan Marble and Miss Celeste Bunker attended the radio program, "Breakfast at Sardi's" at the Hotel Sir Francis Drake in San Francisco on Tuesday morning.

Neighborhood NEWS

Harold Houghton has been spending a few weeks vacation at the Lindon Oaks Ranch of Mr. and Mrs. I. E. Kesterson at Atherton, and is expected home on Monday.

Thursday evening Marion Zwisig and Rose Vieux attended the installation of the 8 and 40 Club in Alameda.

Mrs. Mary Barnard will entertain her bridge club on Thursday at the home of Mrs. Anna Bradford in Niles Canyon.

The Friendly Sewing Circle held a pleasant card party on Wednesday, July 29 at the home of Mrs. Jennie Mohn. The next meeting will be held on August 10 at the home of Mrs. Ellen Mohn in Irvington.

MISSION SAN JOSE

Miss Ruth Justus
Correspondent

Mr. and Mrs. Robert W. Wilson and family have moved to Redwood City as "Bob" is now a Greyhound bus driver. They were former proprietors of the Mission Garage here. Mr. and Mrs. Walter Hoyes are going to run the gas business.

Mr. and Mrs. Daniel K. Cross and children, Edna Mae, David and Myrna all motored to Santa Cruz on Sunday to spend several days at the seashore.

Frank "Sam" Periera spent the weekend at the home of his sister Rose Recends. He works for the P. G. and E. up north.

Mrs. Maude Tallent of Waterford was a week's visitor at the home of her sister, Mrs. Edwin McNemar and family. She returned to her home on Sunday by bus.

Miss Winifred Colombo, former student at St. Marys of the Palms returned on Tuesday evening to visit a number of the sisters and her friends here. She left Wednesday by bus for her place of employment in San Jose.

Mrs. Margaret Moore McClure has been informed that her son Stuart, a former newspaper man for the Mercury Herald and the San Francisco Examiner has reported for duty in Uncle Sams army and is located at present at Monterey. His wife has returned to be with her parents in Virginia, during his training in the army.

Jimmie and Bernadette Semas, youngsters of Mr. and Mrs. Thomas Semas are vacationing at the home of their grandmother, Mrs. Francis Enos at Selma.

Marie and Shorty Cunha of Alameda spent Sunday here at the home of her folks Mr. Joseph Telles and family.

Reverend Manuel Rose who was recently transferred to Patterson Catholic Church came back one day last week to see Father John Leal and friends here.

Mrs. Josephine Fernandez and son "Weezer" and Mrs. Helen Santos and daughter Verna, accompanied by Johnnie Daniels and Leroy Costa motored to Monterey Sunday to spend the day.

Louie Souza, P. G. and E. employee from Colfax spent Sunday here at the home of his parents, Mr. and Mrs. Louis Souza Jr. He returned home late Sunday evening.

Raymond Souza returned to his San Leandro home Sunday following a week of vacationing here with friends.

Alvin Silva has taken over Frank Vargas' milk route as Frank has gone into defense work at Livermore. He will commute with others from the Mission.

Little Louie Schilter, formerly of the Mission, now of Manteca is spending a couple of days with his former playmate, George Schneider and family here.

Misses Regina and Cecille Schneider are vacationing at St. Marys Camp for girls in the Santa Cruz mountains at Glenwood. They expect to be gone for a couple of weeks.

JAPANESE TO WED

TANFORAN — Two members of the Washington Township colony of Japanese-Americans, well known to residents of Washington Township will be married here on Sunday, August 16. They are Miss Shizu Mitsuyoshi and Mr. James Hirabayashi, a past president of the Washington Chapter of the Japanese-American Citizenship League. Both are graduates of Washington Union High School at Centerville.

Mrs. Ernest Azeveda, our first war widow, now employed in defense work in Niles is on crutches for a few days due to an injury to her foot, received while on duty.

Mission seemed to have a run of birthdays lately. Thursday Mrs. Mary Rogers of the Niles-Mission highway celebrated, Saturday Mrs. Florence Castro of "Our Place", and Mr. Joseph Perriera of Palm Avenue the same day. On Sunday Miss Barbara Rogers and on Tuesday birthday wishes were sent by his family to Harley L. Justus at Sacramento where he is employed.

Miss Abbie Sunderer, accompanied by Mr. and Mrs. Walter McGinley of San Jose and their daughter Rosinor motored to Stockton on Sunday to see their new granddaughter, niece and grandniece. Mr. and Mrs. William Giovannoni, the former Josephine McGinley are the proud parents of a two weeks old daughter, Joanne, who by her arrival has made Miss Abbie a Great Aunt.

Mrs. Thomas Cunha and family, Tommy, Cappy and Shirley and her mother, Mrs. Hortense Andrade and her sister, Mrs. Frank Brown motored to Alum Rock on Wednesday for a picnic.

Miss Freida Howard, who was the guest at the home of her aunt, Mrs. Rose Recends for a week has returned to her home in Sacramento.

Miss Nelle Warren returned the last of the week from Decoto where she had been spending a few days with Mr. and Mrs. Milton Castro.

ELLSWORTH HOME TO BE SCENE OF FAREWELL PICNIC

The members of the Coordinating Council of Washington Township are giving a farewell dinner this Saturday evening in the grounds of the E. A. Ellsworth home near Niles to speed the Council's founder, A. J. Rathbone of Centerville to his new duties as principal of Sonoma High School. Assistant Executive W. T. Lindsay, a prominent member of the Council, which has been a model for the forming of other councils throughout the state, will also be honored before he leaves on August 15 for his new responsibilities in the Scout Council of the Los Angeles area.

An impromptu program will follow the dinner, with Deputy District Attorney Joe Schenone as master of ceremonies. Deputy Sheriff Ben Olson will unsmilingly present his celebrated half hour of tricks of magic.

The honored guests, members of the council and their wives, and the host and hostess together will enjoy a memorable event as two of our leading citizens and their families depart from Washington Township for "pastures new".

PICNIC GROUNDS FULL

MISSION — The picnic at Linda Vista Park on Sunday turned out to be very much of a political rally before the day was over. Every one, it seemed, who has his hat in the ring was there giving out literature and personal cards. It was the largest turnout of the season and many war stamps were given away to the various contestants for races run. The swimming as usual was in full swing and even late at night folks enjoyed a late swim. The navy seemed to be well represented also. The season is rapidly drawing to a close and according to Andy Hynes, proprietor of the park it has been a very good season. West of Market Street Boys were the hosts this last week.

Dominican Sisters closed their summer school session on July 29 and report a very nice group attending through the semester.

Our Farmers Fight the War with ELECTRIC POWER

THERE'S AN ARMY in California that never smells the smoke of battle, yet is waging a determined offensive to help win the war. It is our battalions of farmers, marshalled in every fertile valley, producing food stores by the shipload for the sustenance of our armed forces and those of the United Nations. The farm troops fight with modern weapons, chief of which is Electric Power. California's agriculturists lead those of all other states in the United States in their employment of Electricity for bigger and better crops. In the 46 counties into which P. G. & E. lines extend, there are 77,181 farms within one-quarter mile of an electric distribution line. Of this total, 95.9% have electric service for the lighting of buildings and operation of a legion of time and labor saving machines and appliances.

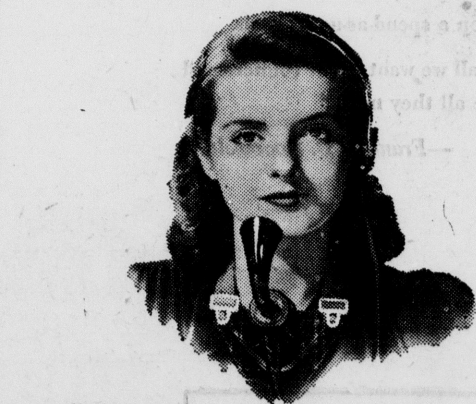

Better than nine out of every ten farms in the territory we serve are increasing their production of vegetables, fruits, grains, poultry and livestock, with the aid of tireless and efficient electrical helpers. This means much in this day when every able bodied man is needed for military service or industrial labor.

For many years this Company has been building its agricultural service—extending lines, improving service, reducing rates, making available to every rural district the advantages of Electricity for farm operation.

The war emergency now finds Agriculture here fully equipped electrically to provide record breaking supplies of victory foods.

PACIFIC GAS AND ELECTRIC COMPANY

You Can Help Make Telephone Service Meet Demands of War

By keeping conversations BRIEF.
By being sure of your number before you call.
By using Long Distance for essential messages ONLY.
By using station-to-station service wherever possible for toll calls.

Your cooperation will aid in this national emergency because the demands of war have loaded our long distance lines and many of our local facilities to capacity and beyond.

Materials required to increase circuits and switchboards cannot be obtained—they must go into the making of weapons and munitions. It is not now possible to build more plant.

Therefore, we all are confronted with the necessity of getting the most out of what we have. In following the above suggestions, you can save yourself time and expense and you will help us keep the way clear for War Messages That Must Go Through.

We appreciate your splendid response in helping to meet these problems which involve the safety and security of us all.

A PATRIOTIC PLEDGE

During the War ...

LEADERSHIP—
NOT POLITICS!

After the War ...

JOBS—NOT DOLES!

"We are fighting for the integrity and safety of our homes, the sanctity of religious faith, the individual's right to self-fulfillment—in short, for FREE GOVERNMENT UNDER LAW."
—Atty. Gen. Earl Warren, in recent radio address

This is What YOU are Fighting For!

ELECT

EARL WARREN

Non-Partisan Candidate for Governor

PRIMARY ELECTION, AUGUST 25, 1942

"Fight! Work, and SAVE!"

A War Message on WAR BONDS from the President of the United States

".... The American people know that if we would raise the billions which we now need to pay for the war and at the same time prevent a disastrous rise in the cost of living, we shall have to double and more than double the scale of our savings.

"Every dime and dollar not vitally needed for absolute necessities should go into WAR BONDS

and STAMPS to add to the striking power of our armed forces.

"If these purchases are to have a material effect in restraining price increases they must be made out of current income.

"In almost every individual case they should be big enough to mean rigid self-denial, a substan-

tial reduction for most of us in the scale of expenditure that is comfortable and easy for us.

"We cannot fight this war, we cannot exert our maximum effort, on a spend-as-usual basis.

"We cannot have all we want if our soldiers and sailors are to have all they need."

—Franklin D. Roosevelt.

BUMPING CURB

One common cause of misalign-
ment of the front wheels is bump-
ing into the curb when parking,
reports the National Automobile
Club. A slight bump that knocks
the wheels out of line can cause
thousands of miles of unnecessary
tire wear before the motorist re-
realizes it has had the slightest ef-
fect.

A Kick For Adolf.

Passed by Censor

A CANADIAN shoe factory is now turning out a product with a much more violent kick in it—guns. Vickers machine guns and two-pounder anti-aircraft pom-poms are being assembled here in the same plant where the gun mountings are manufactured. Browning, Vickers and Sten machine guns are coming off Canadian production lines in increasing volume as part of the mammoth war production program totalling more than \$3,447,000,000 since July, 1939. The Canadian government has provided about \$660,000,000 worth of capital assistance for the construction of new plants, extension of old and the installation of machines and equipment. Production of guns, mountings and barrels includes 22 different types ranging from field guns to safety fuse pistols. Output of Bren guns, for instance, is nearing 4,500 monthly. More than 100 types of ammunition, mines, bombs and pyrotechnics, 12 types of chemicals and eight types of explosives are included in the program, and other weapons will be in production soon. Canada's armament industry is in high gear.

**The FARMERS
CORNER**

by RALPH H. TAYLOR

Executive Secretary
Agricultural Council
of California

The United Nations, to win the initiative in the war against the Axis, must soon open a second front, it is now agreed, and there are increasing indications that the occupation of Europe by Allied troops is one of the ultimate objectives of such a campaign.

The military aspects of that titanic undertaking must be left to military experts. When the second front will be opened; where our

troops will first open the attack, and how the momentous conflict will be fought — these problems, of necessity, must be dealt with by military strategists and the responsible heads of the Allied nations. But there are economic and production problems ahead, which will come in the wake of that battle for victory, which American agriculture must play a large part in solving. And it is just as vital that America prepare now for this phase of the fight to crush the Axis as for the battle itself.

When the United Nations have freed France, Norway, Belgium, Poland, Greece and the other nations now enslaved by Nazi Germany; when Japan collapses, and China is free from blockade—when

that time comes, America again will be called upon to assume the tremendous job of feeding most of the civilized world. There will be immediate and urgent need for food and other supplies in the liberated nations so that their manpower can take part in the final, devastating knock-out blows against Hitler and Hirohito. There will be critical and immediate need, too, so that millions now facing starvation may be saved.

What part can American farm surpluses, accumulated during the long years of depression, play in meeting that problem? What can be done, for example, to utilize the huge wheat surpluses in the United States?

U.S. Senator Arthur Capper of

**WESTVACO TUMBLED
TO THIRD PLACE
IN CLOSING GAME**

(Continued from Page One)

the nine inning affair 10 to 9. This game was one of the wildest and most peculiar games of the season with both clubs making numerous errors. With Woodmen leading in the game, then Westvaco going ahead Woodmen going ahead again, Westvaco tied up the ball game in the seventh inning making it go two additional innings when Woodmen scored two runs in the ninth inning to win the contest. Robello was the starting pitcher for Woodmen, but Rogers finished the game and was credited with the win.

Kansas, who is close to the farm problems of the Middle-West, and who also has had an opportunity to study the international situation, urged weeks and months ago that the War Production Board not only allow materials for storage facilities to be allocated to the wheat belt, but also that the WPB should insist that the lumber and nails be allocated for storage construction. "The regulations were modified", he reports, "but I am much afraid, too little and too late."

Senator Capper believes, however, that other steps still can be taken to insure the utilization of wheat which is now surplus, but which will be desperately needed when America must undertake the job of feeding most of continental Europe.

This is only one aspect of a big problem; there are other surplus commodities besides wheat, many of them in California. But it is at least encouraging that some thought is being given now, before it is too late, to salvaging current surpluses for the day not far distant when we will undoubtedly be confronted with drastic shortages.

WALTER WAYNFLETE
Editor and Owner

POLITICS IS FLEETING . . .

A country newspaper is enabled to publish its weekly issues the year round by means of the paid advertising received regularly from Tom the merchant, Dick the banker and Harry the grocer.

Once every two years an election comes along. A few weeks before the election, candidates for office or their representatives, start trooping to your office to place a few dollars worth of advertising, and leave a prepared statement for publication. They hope you will back their campaign editorially, but know better than to ask you to do so.

Because: next day, or next hour, in comes their opponent, who also leaves a few dollars worth of advertising, along with the usual prepared statement for publication; who also hopes in his heart that you will back his candidacy editorially.

An experienced editor knows better than to back any candidate campaign for office. If the newspaper bets on the wrong man, and his opponent gets into office, future relations between the newspaper and the new official are always difficult.

The editor of this little paper has safely gone through seven state and national elections during the past 14 years without making any enemies, and his studied policy of "hands-off" will be continued in this election.

The only exception this newspaper will make in the coming election is in the race for governor. A change in that office is urgently required.

With regard to the other offices, whether national, state or county, my columns are open to who-so-ever-will. I hope my new found friends of Washington Township will not be disappointed if I do not "run a fever" in favor of this candidate, or against that candidate.

Life is too short. Elections come and go, and so do candidates. Time eventually erases them, and most of their work. You voters do the electing, anyway, and I am only entitled to cast one vote, the same as each of you.

After the election is over, Tom, Dick and Harry go right on supporting this newspaper, and my allegiance is to them rather than to candidates for office, only one of whom can win each office seat.

May the best man win; which is the democratic American way, and neither you nor I ever want it to be any other way.

If Register readers could sit with me and wade through the envelopes full of political tripe, mud-slinging, charges and counter charges which come to my desk in every mail, and to every other editor's desk in increasing volume from now until election, they too would hold their noses, file it under "S" in the scrap basket . . . and reach for their fish-rods.

Little of this unsolicited stuff ever gets into type, and it represents, as it has always repre-

sented, a disgraceful waste of time, materials and energy. And money.

But that is the American way, before every election. — W.W. —

ET TU, BRUTE?

This office suddenly stumbles over the news that General J. O. Donovan, former Adjutant General and Selective Service Director for the State of California has resigned both public offices in order to run for congress from a southern district.

When one recalls the General's inability to get up before the special session of the legislature last December, when things here on the Coast looked very ominous, and thousands of men were flocking into the State Guard . . . and tell the legislators just how much money he wanted appropriated with which to run the Guard . . . one does not anticipate too brilliant a career for him as a congressman.

Any \$30 a week salesman could have sold this "bill of goods" to the state solons; but in three days of going 'round and 'round General Donovan could not seem to tell the legislature just what it cost to equip and pay one Guardsman for one year. By multiplying that unit cost by the number of Guardsmen required would have produced the figures in dollars and cents which the legislators wanted.

So the legislature appropriated a small stop-gap sum, adjourned sine die, and nothing much has happened since.

Good thing for us that the Japs did not strike us that first war week in December or this might now be "Japifornia".

There is a new Adjutant General in Sacramento now, who has settled down to quietly administering the few thousand men left in the California State Guard and Reserve.

Good luck to General Donovan in his search for larger fields of endeavor!

WE ARE NOT GOD.

The last issue of Colliers devotes an editorial to taking issue with Plotinus, a third century A.D. philosopher who, towards the end of his life penned the impressive conclusion that only he himself was responsible for all that had happened to him in his life-time.

Collier's editor properly asks if a man can be held responsible should a mad dog suddenly run up and bite him, or if some unknown relative dies and leaves him money?

The answer, of course is NO. A person is only responsible for his or her conduct; not for what happens to him. Can anyone who reads this commentary say positively that he will not have an automobile accident next week? That his appendix will not rupture? That he will not die before a certain date? These happenstances are not under the control of we circumscribed humans.

Philosophers, in this stu-

Editorial Page of the Township Register

SPEAKING OF BONDS

dent's opinion, are of all people the dullest. If they knew life they would be so busy living it and enjoying it they would have no time to record lifeless thoughts.

This war today, and the Bolshevik revolution of the last war can be laid plump on the doorsteps of Karl Marx, Ficht, Schlegel and Nietzsche whose foul thoughts were embraced by Lenin, Trotsky, Hitler, Mussolini, Tojo and all the other dark exponents of isms: bolshevism, communism, faecism, nazism, militarism.

For true Light the sincere seeker goes to the Bible for enlightenment and inspiration, because the Author Of Life speaks through these inspiring records, principally the Gospels and St. Paul's writings.

God is; Jesus lives, and together They keep life going for those of us who properly know and worship Them. If philosophers knew Our Lord and his teachings they would not be philosophers, whose fool thoughts infect the minds of weak, Godless men.

According to Plato, acknowledged to be the greatest of all philosophers: "man comes into life a bit of mucus and goes out a puff of smoke." Christians know better: man comes into life by the will of God and goes out the same way.

Exeunt homo, — and philosophy!

ALAS, POOR GHANDI!

The Mahatma's leadership, in a few words: "We must have independence from England . . . so the Japs can take us to the cleaners that much sooner."

Remove British arms from India and what do 350 million Indians have left to fight with? About as much as 350 million Chinamen had five years ago — only less.

LET US REJOICE

That the U.S. Supreme Court last Friday denied the right of civil appeal to seven of the eight nazi saboteurs picked up several weeks ago by the alert F.B.I., — not omitting mention of the Coast Guard which first discovered them landing on an American beach.

The night before the court handed down its denial attorneys for the spies presented the innocent plea that their clients had fled to America (via nazi U-boat!) to escape the terrors of nazism. The fact that they brought hundreds of pounds of

high explosives, detailed maps of vital industries to be wrecked and \$140,000 cash escaped the attention of the spies' attorneys.

One wonders how any lawyer can sacrifice his reputation by attempting to defend enemy agents in war time, lured no doubt by the money and the sensational publicity he may receive. Honor should come first; and too few people possess that precious characteristic.

Aren't we Americans a little too trusting? And a lot too liberal with our privileges of freedom during war time? When our spies are caught landing on a beach in Germany or Japan they will be shot without a trial in about 30 minutes flat.

We must treat the enemy's agents in the same way. This is war.

A SIDE-ISSUE OF THE WAR.

One constructive side-issue of this destructive war, a repercussion which is not being given much popular attention, is the stimulus now being given to the rush-building of great highways north from the United States through Canada to Alaska, south through Mexico into five Central and South American Republics.

These roads, when completed, will help our import and export trade without the use of shipping. They are out of reach of most bombings except from long-range bombers.

They will exist, will be used, and will contribute a lot to our national well-being long after the war is ended.

Building international highways throughout the western hemisphere is a wise investment in the future of international amity between nations. Let's have a lot of such new highways!

"C'EST LA GUERRE!"

The shortage of paper clips is becoming apparent. Mail matter coming in to this office is now stuck together with pins, staples, (bad cess to 'em!) and even Scotch tape.

But that's nothing! In England if you waste any kind of paper or get caught burning up any of it, the fine is \$25. If you throw out usable string, rope or even rags in your family waste can the fine is \$300 or three months in jail.

The French, with their grocery stores empty of all foods except yard-long loaves of hard

bread, and a bin of dried apples, had a phrase for it in the last war: "C'est la guerre." (It is the war.)

We Americans have not been hurt any — yet.

WORLD HISTORIANS

The historians of this war are the newspaper correspondents. . . Never in the history of war reporting have foreign correspondents had the job to do which newspapermen are doing in this war.

They are scattered all over the fighting fronts and often provide our only sources of information from the scenes of battle. When Singapore fell the public's, and often official's, only knowledge of what was going on came from the daily newspaper despatches of Harold Guard and others like him. When the Dutch East Indies fell our only link with war in that field again was Harold Guard and his despatches.

Outside a brief army and navy communiques, we get our principal information about "what's cookin'?" in the Aleutian area from the pen of Wayne Wheeler.

Correspondents recently returned from eight months of imprisonment in Japan proper give us, and official Washington, our first real picture of how the enemy treats our nationals. Even Secretary Hull is basing his studies of this problem on reports provided first by released correspondents, second, by the members of the small diplomatic staff.

These knights of the type-writer, assigned at sea, on land, and aloft, risk their lives with the fighting forces in order to get the news while it is happening.

All the radio commentators know about what's going on at the far-flung fronts is derived from the despatches filed by newspapermen at the scenes of action. Never have the wire services and the great American dailies had the job to do that they are doing now. Yes, these world-famous newspapermen are paid of course by the great dailies, or the wire services, which maintain them at all the fronts, so we at home, and our government as well, can keep apprised of developments as they happen.

Exciting assignments, you bet; and risky. All hail the modern knights of notebooks and typewriters, who are recording history as it happens. Surely a job for men, the same as soldiers, sailors and airmen whom these scribes accompany into battle.

Their work will survive long after they are gone.

MINUS NOTHING

If you live in California be thankful you do not have a net income of \$5,000,000. Because if you did you would have no income at all and in addition would have to dig up \$115,566 in addition to the five million, all of which the federal and State governments would take in taxes!

Here's the way it figures out: federal income tax, under the pending revenue bill would take \$4,374,616. California state income tax would be \$740,950. Total federal and state income tax: \$5,115,566.

So you would not have any income at all and would owe the two branches of government a minus \$115,566 which

you don't possess, because you supposed you had a net income of \$5,000,000.

Such be the majesty of some of our hurriedly-concocted laws.

By all means repeal the state income tax at the November election. California is now out of the red, in spite of Olson, and does not need income tax revenues.

ENOUGH IS TOO MUCH!

When the Niles Fire Department answered the fire siren twice a few hours apart, to fully extinguish the same fire on Tuesday afternoon between Mexico-town and the highway, Chief "Tony" and his assistants got peeved.

When playful Mexican boys allegedly rekindled the same grass fire for the second time just for the fun of seeing the volunteer firemen sweat while putting it out, enough became too much.

The siren went off for the third time and the Chief and his men waited in the firehouse. Pretty soon an irate Mexican housewife came up afoot to complain her wooden house was imperilled.

The chief advised her to have the fun-loving Mexican boys put it out, seeing they had started it up for the second time.

So usually good-natured "Tony" and his boys lost most of Tuesday afternoon from their work, and some idle Mexican boys should be haled before His Honor to be cooled off in the town cooler for a few days. . . and maybe that would not be so funny?

SOMETHING new when Army and Navy heroes of this or that battle are detached from service in order to stump speak before men's and women's civic organizations. What's the idea? Do civilians need pep-talks? I don't think so. Because they can't do any fighting, most civilians feel this war as keenly as the men in action.

Our war heroes should be assigned to inspiring the new corps of soldiers and sailors and air men, rather than we civilians. So far as I can feel the public pulse, civilians have more time to "fight this war" mentally than most men in service. — and we civilians feel the war keenly.

—ww—
WAACS AND WAVES! The 25,000 women in Uncle Sam's uniform are members of the Women's Auxiliary Army Corps, patterned on England's corps of the last war. The WAVES include 10,000 women sailors, something new in the U.S., who are to be members of the Women's Auxiliary Volunteer Emergency Service, — quite a mouthful. But they won't go to sea: they will serve on land to release sailors who will go to see — the enemy.

—ww—
SOME 299 vessels and tankers have been built since the outbreak of war. Since January 432 American vessels have been sunk. The "house" doesn't get the "percentage" in this case. How about those cargo carrying airplanes Miracle Man Kaiser of California is now trying to sell—in principle—to the administration?

Common sense hopes he will succeed.

TIME TO REPEAL NEEDLESS LAWS

The Office of War Information (OWI) reports this week that farmers enjoyed a total of 48 percent increase in gross income for the first half of 1942. The exact figure is \$5,773 millions the first half of this year as compared to \$4,012 for the same period last year. The total farm income estimated for this year is set at \$14,500 millions. (That means 14 1/2 billions.)

These figures, says the printed report, "includes Government payments."

WHAT government payments? In this era of rising returns does the government still find it imperative to pay farmers NOT to grow certain crops; and to keep their "ever normal granaries", now bursting in the Middle West, still padlocked for the future?

Where are the grain farmers going to store this year's crops? Last year idle buildings throughout the grain belt were rented and filled with wheat. This year the grain farmers are having their best season in more than a dozen years. Where are they going to store their grain?

And what is the President's objection to using surplus grain as an alcohol base for butadiene for synthetic rubber, instead of petroleum? Though gasoline strage facilities are also bursting, the government is buying up lots of gasoline and the motoring public still motors up to within seven percent of its normal consumption.

By contrast: the export of wheat to the eastern hemisphere has been cut off. Why continue to subsidize (or penalize) farmers under the outmoded "philosophy of scarcity" wheat program when we have enormous reserves stored, and a bumper crop in sight? Stored wheat cannot be held forever. It finally deteriorates until it becomes useless for human consumption.

Perhaps Congress, while waiting for something more important to do, might bring the Agricultural Adjustment Act of 1935 or 1936 up to date to fit our present bulging grain bin situation — for the immediate relief of American grain producers, — and ultimately the tire-less motoring public!

—ww—

CUTLINES under a U. S. Navy picture: "The new air-

craft carrier Vultex snapped as she slid down the ways . . . Must have been faulty construction somewhere!

—ww—

MORE THAN 50 years ago had the founder of this newspaper been able to foresee the public sign-ups required by our government in this Year of the Great War 1942 he would not have afflicted this newspaper with the name "REGISTER".

It is a poor week when some one does not drop in to this office to REGISTER for the draft, to REGISTER for sugar, and now for the Rent registration.

It takes years to get national advertisers and local subscribers used to a new name for an old newspaper; so I will not take it upon myself to change it.

I hope some day, possibly in Heaven? — to run a newspaper which bears the title: Herald. A Herald calls forth, usually good tidings.

Wouldn't Township Herald sound nice, at that?

—ww—

THE OWNER of this little publishing and printing business is very appreciative of the large and frequent printing orders which come in from the Pacific States Steel Corporation, the Kraft company, the California Nursery Company, the E. H. Frick Plumbing company, Berge Mortuary, and many other large and small concerns which operate in ashington Township.

With normal advertising income about cut in half because of the war, every printing order which is placed in the Township helps us to keep our doors open for business, and helps us to weather these tough times.

V stands for Victory; also for \$V. Thankee, folks, thankee! — W.W.

—ww—

BY THE WAY California newspapers, large and small, are lining up behind Earl Warren-for-Governor, and giving him voluntary editorial support in the hopes of a normal, powerful administration at Sacramento, looks like Warren will be a push-over for the governorship.

I have seen these fights before, and I have never seen a candidate for office defeated at the polls when the majority of California's 700 odd newspapers lined up behind him, especially when they do it voluntarily, as in this case.

Newspapermen are hard-headed, and they want a sound, economical administration at Sacramento. California is now out of the red for the first time since C. C. Young; let's keep it that way with a businessman rather than a political charlatan sitting at the head of our seat of state government!

—ww—

THE ARMY has asked the CAA to train 31,000 airplane mechanics in its Civilian Pilot Training centers under a bill just signed by the President.

—ww—

Selective Service headquarters has instructed draft boards to induct during August some men classified as I-B with certain types of modified physical defects. This will be the first time this group of men, wanted for non-combatant service, has been tapped.

—ww—

UNCLE SAM'S crying need for scrap iron and other disused or worn-out products made of metal should put every farmer "on his metal"!

EDITORS ELSEWHERE

(Livermore Herald)

IT HAD TO HAPPEN — Members of a rationing board refuse to spend their own money any longer to meet the expenses of operating the board. Ration board members have been long suffering, but they have suffered in silence, hence it is not generally known that they are paying for the privilege of doing the most difficult, burden-some and harassing job in civilian life today. They must even buy their own stationery and pay the postage on their reports, except that in the latter instance they can from their own personal funds buy rubber stamps with which to frank envelopes. They were imposed upon at the very start when they believed, and were never told otherwise, that they were to handle tire rationing, and later had sugar thrust upon them. Rationing boards should thank the Walnut Creek board for bringing this problem to the public attention and support them in their contention that they will no longer pay bills of a government agency from their own pockets.

(Livermore Herald.)

NEWS from Washington is that there will be a ceiling placed on wages after the November elections; that gasoline rationing on a nation-wide basis has been postponed until after the elections; that the draft age will be lowered to 19, or even 18, after the elections. But, no Congressman or other politician can postpone the war until after the election, and in the meantime the delay adds to the cost of the war in dollars and lives.

(Editor Maitland Henry might have added that benefits to soldiers' and sailors' dependents does not begin until TWO DAYS before election. This may be smart politics, but smart politics won't win this God-awful war. Politics should be OUT, "for the duration", same as most other things. — W.W.)

Are you entitled to wear a "target" lapel button? You are if you are investing at least ten percent of your income in War Bonds every pay day. It's your badge of patriotism.

CONGRESSMAN CARTER ADDRESSES GROUP AT CENTERVILLE

CENTERVILLE — Some 65 supporters enjoyed meeting Congressman Albert Carter at a meeting at the high school here Wednesday night of last week. The Congressman had flown out from Washington on a hurried trip.

He answered many questions put to him by his hearers, relating why he had voted for or against certain important measures in the interest of national security.

His campaign manager, Fred Trimlett of Oakland, was present as well as Sam Goodman, organizer. Mrs. Carter was also present greeting old friends, who are giving social affairs in her honor.

Congressman Carter, with 18 years of service at the national capital is a senior member of the Rivers and Harbors committee. He is also a member of the powerful Appropriations Committee, membership on which requires at least 10 years seniority.

WATCH TIRE WEAR

Examine the front tires on your car regularly for signs of uneven wear, advises the California State Automobile Association. Misaligned wheels are the most common causes of such wear.

What You Buy With WAR BONDS

The Aerial Camera for use on Scout and Observation and Reconnaissance planes is essential to both the Army and Navy air forces in planning battle formations and in obtaining information on enemy fortifications and movements. They look something like a cannon, and cost about \$3,400 apiece.

The aerial cameraman can plot wide territories in bold relief so that Army or Navy Intelligence can make accurate measurements of enemy territory. We need many of these cameras so necessary to the air arms of the Army and Navy. You can help buy them with your purchases of War Bonds. Invest at least ten percent of your income every pay day, and help your country go over its War Bond Quota.

BRING IN DEER

MISSION — On Saturday morning early the hunters began to seek out those little four legged animals in the hills back of the Mission, and some were successful. The first one reported in was taken on the Ed Vargas ranch. It was a one pointer-two pointer. J. C. Mathis of Mountain View brought it in to town. Then followed Joe and Tom Semas, local boys. They had gotten one on the McClure Ranch on Mission peak. It had two points on each side and weighed about 100 pounds dressed. Joe G. Phillips of Oakland got his before noon in the Warm Springs District. It also was a two-two.

Dale V. Carithers of the Mission Hereford Ranch has bagged the largest buck this season according to reports from this district. It weighed well over 120 pounds dressed.

WARREN FAVORS REPEAL OF STATE INCOME TAX LAW

In an emphatic and unqualified endorsement of the initiative act to repeal the State Personal Income Tax, Earl Warren, non-partisan candidate for Governor, declared today that "California taxpayers, with their drastically increased Federal tax payments for war purposes are entitled to relief from needless and oppressive State taxes, and the Olson administration shows an utter disregard for the needs of the people when it opposes such relief."

"California needs to remove the stain from its name of having the highest per capita State tax rate in the nation," said Warren, "and repeal of the State Personal Income Tax is a good start in that direction."

"The State Treasury, due to the impact of war conditions, has a rapidly mounting surplus and there is no possible need for the revenues derived from the State Income Tax. On the other hand, there is desperate need that our citizens have any relief that can be given them in their State tax load, so that they can meet the requirements of the Federal Government for war taxes."

— Nobody's Getting Rich
"This is not a war in which the people are getting rich with war profits. It is a war which will require the utmost in bitter sacrifice. Tens of thousands of professional men and white collar men, whose wages and earnings have failed to increase, or have decreased, while the cost of living has been sharply soaring, need to be relieved of the added and unnecessary burden of the State Income Tax. Thousands of small business men who are trying to hold their businesses together, and keep their employees on the payroll, in face of rationing problems and other war conditions, need to be relieved of this added burden if they are to continue in business."

"Every member of Organized Labor — in fact, every workman in California — will be forced to sacrifice to pay war taxes which must be imposed, and as a consequence the executive council of the State Federation of Labor has gone on record as favoring the repeal of the State Income Tax."

— Wartime Government
"It would be a cruel injustice to the men and women of California who must carry the exceedingly heavy burdens of war support if they were denied some measure of relief in their State tax payments at this time. The State Income Tax should be repealed — and at the next session of the Legislature, if I am elected Governor, we will complete the job by converting State government to a wartime basis and ending the reckless era of extravagance which has given us the dubious distinction of imposing the highest State tax rate of any State in the nation."

Thomas Orloff, former mayor and foreman of the Alameda County Grand Jury several years will direct the Warren drive in Pleasanton. In Centerville M. W. Stevenson heads the Warren non-partisan campaign committee.

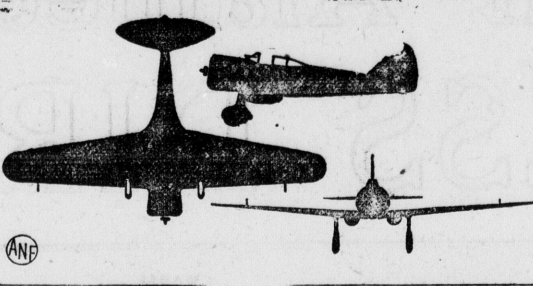

Leon Solon, chairman, and Edward Glassbrook, vice chairman, are in charge of the drive for Warren in Niles, while Cyrus A. Solon is chairman of the Warm Springs committee, and Manuel Brown, vice chairman.

In Livermore T. W. Norris is serving as chairman and Dr. F. Leslie Herrick, vice chairman.

Know the Enemy's Planes

JAPANESE NAKAJIMA "97" FIGHTER

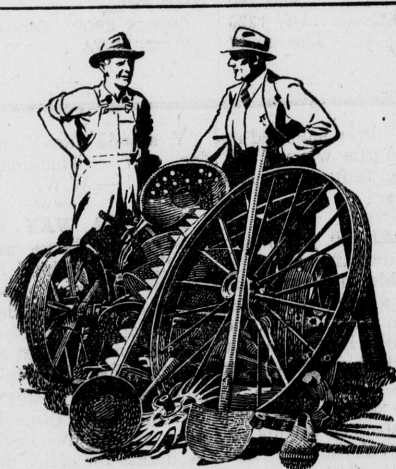

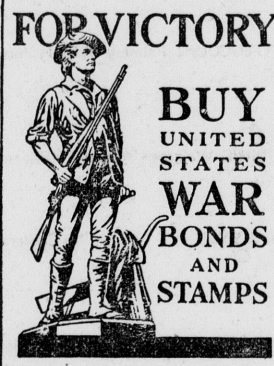

As the fifteenth in its series of enemy plane silhouettes, the Aeronautical Chamber of Commerce of America shows here the Japanese Nakajima "97" army pursuit plane. A single-seat fighter powered by one radial engine, it has a claimed speed of 280 mph. and a range of 389 miles—which leaves much to be desired when compared with the 400 mph. American and British fighters. This low-wing monoplane may be identified by the slight taper on the leading edge of the wing and the well-defined taper on the trailing edge. Its fixed landing gear, using tin pants, extends somewhat forward of the leading edge of the wing. Underside of fuselage has distinct upward taper to the tail.

COUNTY TAXPAYERS BEARING SLIGHT INCREASE IN TAXES

The burden of property tax levies in Alameda county averaged \$50.06 per \$1,000 of assessed valuation in 1941-42, California Taxpayers' association stated today, surveying tax levies and local budgets throughout the state. For 1938-39, the average property tax burden in the county amounted to \$49.86.

Total property taxes levied in 1941-42 in the county, cities, school districts, and other special districts amounted to \$23,251,242, on an assessed valuation of \$464,426,865. In 1938-39, property taxes levied totalled \$22,018,253 and the assessed valuation of property in the county was \$441,622,986, the association found.

"What's it good for?"
"Guns, tanks, and maybe part of a plane"

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example.

Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full

rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help?

First—collect all of your waste material and pile it up.

Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

NEWARK STARTS JUNK METAL DRIVE

NEWARK — Chief Joe Pashote of the Newark Fire Department announces to the public of Newark that a Victory Scrap Metal Drive is now under way at the Newark Fire Station. This drive is being sponsored by the Newark Fire Department and the citizens of Newark. The scrap pile will be located in the rear of the Newark Fire station property on Ash street.

Here is an opportunity for people to get rid of old and unused scrap metal material. Come on—Newark let's provide enough metal to make enough ammunition to shoot those d— Japs down! Chief Pashote wishes to emphasize to the public of Newark that no rubbish or tin cans will be allowed in this pile.

STATE INVESTS ITS SURPLUS \$13,192,950 IN U. S. WAR BONDS

State Controller Harry B. Riley today revealed that surplus money of the State of California is being put to work to help win the war. Already \$13,192,950 of the State's unneeded cash has been invested in war bonds.

"Every nickel not immediately needed for State purposes is going into Federal bonds," Controller Riley said. "Rather than allow the excess money to lie idle in the treasury we consider it not only good business but a patriotic duty to put it to work in the war effort."

Controller Riley said that the \$13,192,950 the State has invested in war bonds is in addition to the \$241,847 purchased by 15,119 state employees through the payroll deduction plan.

A. B. Leask has accepted the treasury-ship of the Niles Congregational Church, to fill out the unexpired term of W. T. Lindsay, until the annual election in October.

REV. D. Q. GRABILL ASSUMES PASTORATE AT NILES CHURCH

Reverend and Mrs. D. Q. Grabill of Wisconsin greeted the members of the Niles Congregational Church Sunday morning and the minister assumed his month's acting pastorate at the 11 o'clock service. He preached on the topic "What Do You Want?"

The Grabills moved into the Manse on Monday and were dinner guests at the Waynfletes that evening. Mr. Grabill will be in charge of the Church during the month of August. Before the end of the month the officers of the Cabinet and the Congregation will vote whether or not to call him permanently.

The Sanford Circle and Ladies Guild are giving a reception to Mrs. Grabill Friday afternoon and the Men's Fellowship held open house for Mr. Grabill Thursday evening with President E. F. Glassbrook in charge.

Mrs. Fred Duffie and son are entertaining the Grabills at dinner Saturday evening, with Trustees and Mrs. Paul Offel as guests.

MRS. ELVY WYATT ANSWERS SUMMONS

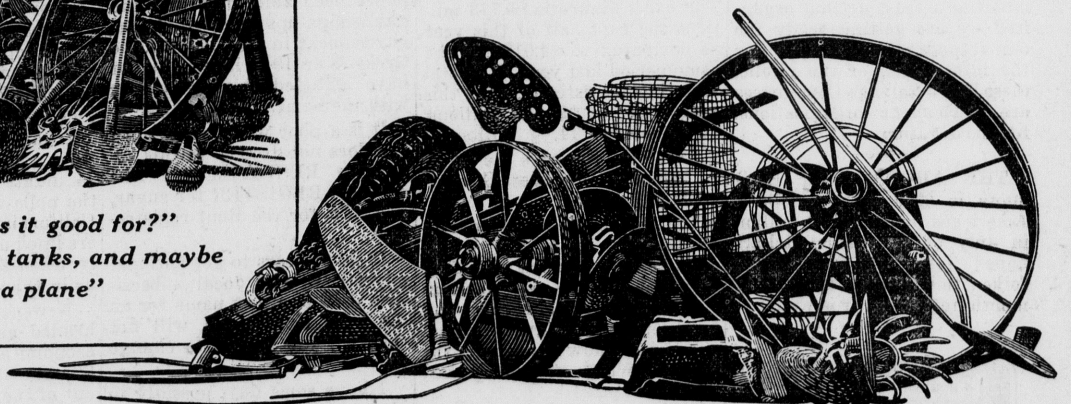

NEWARK — Word was received in Newark Monday of the death of Mrs. Elvy Wyatt, widow of the late Walter Wyatt, who for many years was the Southern Pacific Agent at the Newark depot. Mrs. Wyatt passed away early Monday in an Oakland hospital after a stroke.

She had lived in Newark for over forty years, and moved to Oakland only six months ago. She was a member of the Centerville lodge, Order of Eastern Star and of the Newark Women's Improvement Club.

She is survived by a daughter, Mrs. Harry Gomez of Oakland and a son, Walter Wyatt of Oakland.

JUNK

needed for War

JUNK MAKES FIGHTING WEAPONS

One old disc will provide scrap steel needed for 210 semi-automatic light carbines.

One old plow will help make one hundred 75-mm. armor-piercing projectiles.

One useless old tire provides as much rubber as is used in 12 gas masks.

One old shovel will help make 4 hand grenades.

MATERIALS NEEDED

Scrap iron and steel.

Other metals of all kinds.

Old rubber.

Rags, Manila rope, burlap bags.

Waste Cooking Fats—When you get a pound or more, strain into a large tin can and sell to your meat dealer.

NEEDED ONLY IN CERTAIN LOCALITIES: Waste paper and tin cans—wanted only in certain areas, as announced locally. NOT NEEDED (at this time): Razor blades—glass.
